

The Port Washington Water Pollution Control District has started a bench donation program in Sunset Park. As part of our initiative to enhance the property's aesthetics, we have begun to introduce additional benches due to the deterioration of the existing ones. We would like to extend an opportunity to the residents of Port Washington to acquire benches in remembrance of a loved one, to celebrate a milestone or to honor a community leader.

Donations for benches are priced at \$2,000 each. The style and location of the benches will be decided by the District. We have room for ten benches, and applications will be accepted until the end of August or until all benches are sold, whichever occurs first.

Once installed, the bench is the property of the District. Your donation provides you with a personalized engraved plaque and a bench with a 10-year maintenance guarantee. The bench will remain at the location as long as it is serviceable.

Once the bench is no longer serviceable, the donor will be notified and can purchase a new bench.

To apply for a bench, please fill out the form below and send to gdifiore@pwwpcd.us. We will review the application and respond to you within 2 weeks with any needed changes or to request payment. Please do not send payment until you hear back from our office.
