October 10, 2025

On October 2, 2025, three letters were delivered via the United States Postal Service to the PWWPCD office. Each letter was individually addressed to a member of the Board of Commissioners. On October 7, prior to the commencement of the regularly scheduled Board meeting, the unopened letters were placed on the folders of the respective Commissioners for their review.

During the meeting, Commissioner Kurz insisted on reading one of the letters aloud in open session and declined to identify the author when requested to do so by the Chairperson. The contents of the letter referenced the purported experiences of an alleged lacrosse athlete with a resident of the District; however, the subject matter bore no relevance to the District's official business or operations.

Upon subsequent examination of the name and return address listed on the envelope, it was determined that the sender's information was fictitious. Consequently, the District is unable to substantiate or verify any of the allegations contained within the correspondence. The District extends its sincere apologies for the fact that the letter was read during a public Board meeting and regrets any confusion or concern that may have resulted from this occurrence.
